a) **Heavy parcels:** i.e. Parcel of Freight with a weight higher than 30 kg (including),

b) **Subsequent handling:**

- subsequent production of a new Address Label in the required dimensions and quality,

c) **Seasonal Period:** Express One Slovakia reserves the right to charge a seasonal surcharge for the period from 01.11. to 24.12. of the relevant calendar year. The seasonal surcharge for each Shipment is according to the current Price List of Express One Slovakia.

d) **Crisis situation:** Express One Slovakia reserves the right to charge a crisis fee in the event of a crisis situation for each delivery in the amount pursuant to the current price list of Express One Slovakia. A crisis situation is a period of time, during which the safety of the state is immediately endangered or impeded and the constitutional bodies of the Slovak Republic may after fulfilment of specified conditions declare an emergency, emergency condition or exceptional situation. A crisis situation is also a particular legal fact, consisting in an extraordinary, unforeseeable, unavoidable and involuntary event which restricts or otherwise adversely impacts Express One Slovakia with regard to the provision of transportation services.

e) **Conversion Surcharge:** The value of the cash on delivery amount in EUR will be multiplied by the exchange rate of the European Central Bank of the currency of delivery country to the EUR currency increased by the conversion surcharge. The amount of the conversion surcharge is 1.5 %. Express One Slovakia is authorised to unilaterally change this surcharge pursuant to the actual situation on exchange markets.

Express One Slovakia is authorised to charge surcharges stipulated in this clause both for cross-border international and domestic freight. If it is strictly necessary, Express One Slovakia is authorised to pack/repack individual Parcels to comply with required standards for shipment of Parcel. Express One Slovakia reserves the right to charge a packaging surcharge for such subsequent repackaging for packaging material used.

2.3 Express One Slovakia is authorised to charge the fee stipulated in Clause 2.2 of these Commercial Terms and Conditions for each item a) to e) separately. Individual surcharges for subsequent handling are stipulated in the valid Price List of Express One Slovakia.

2.4 If Express One Slovakia accepts for shipment a Parcel requiring subsequent handling stipulated in Clause 2.2 of these Commercial Terms and Conditions, it reserves the right to use third party services for such Parcels at the expense of the Sender. Express One Slo-

vakia does not warrant in such events that it will adhere to the normal time of shipment of Freight, nor compliance with other shipment standards pursuant to these Commercial Terms and Conditions.

2.5 The Sender is obliged to pack and seal each Parcel in a way corresponding to the weight, form and nature, and the method and time of shipment of the Parcel. The Parcel must also be secured in such a way that it can be handled by a single person, to be sufficiently resistant and to minimise the possibility of its damage by transportation on a roller line. The packaging and closure of the Parcel must protect its content against pressure, temperature changes or damage due to repeated handling. The Sender is obliged to secure the contents of Parcel to prevent the motion and potential damage inside of the Parcel during the shipment (e.g. by using filling inside of the Parcel). The Parcel must be sealed in such a way that its content cannot be accessed without leaving a visible damage trail. Damping material must be positioned on the bottom and top of the packaging, thus increasing the protection of goods during shipment. Bundling several Parcels or items into a single item of Freight is unacceptable. If Express One Slovakia identifies such an action, it will not accept any claims. The Sender is liable for damage which may occur due to the use of faulty, unsuitable, damaged or insufficient packaging of the Parcel.

2.6 Parcels must be packed and sealed in a way that does not jeopardize the health of persons that come into contact with the Parcel, and to not damage, waste or contaminate other Parcels that are shipped together, or the means of transportation, storage premises or handling equipment of Express One Slovakia. The labelling "Fragile Goods" does not relieve the Sender from liability for correct packaging. It points to the need for the careful handling of the Parcel, but it also requires a thorough packaging of such a labelled Parcel by the Sender. Freight containing goods for repair or goods where the Sender claims damages must be sent in the original packaging and all used shipment labels must be removed from the packaging. For the sending of fluids, plastic packaging should be preferred to glass and absorption material must be used around the packaging. When handling Parcels, Express One Slovakia is not obliged to follow the orientation labelling of Parcels (e.g. "Up" arrow or labelling "This side down").

2.7 The following categories of items are excluded from pick-up and distribution:

2.7.1 items not compliant with standards for packaging and proper labelling of Parcels/Freight, i.e. those including unpacked Parcels and Parcels which are unsecured or packed in a way not corresponding with their weight, size, form, nature of content, above all fra-

2.7.8 items which contain biological material, this category includes human remains, animal remains, urns with ashes, medical waste, biological waste, infectious substances, and other harmful substances;

2.7.9 items which contain explosive material, defence equipment and weapons, this category includes firearms, ammunition for firearms, pyrotechnics, tear gas, irritant gas and similar chemicals and gases in various types of containers, all explosive or combustible launching substances that independently or together with other items cause explosion or fire, organic peroxides, explosive, flammable, caustic or oxidizing substances, etc.;

2.7.10 other items with specific features, this category includes as well as substances which are subject to natural impairment (destruction) during the distribution process, e.g. rapidly deteriorating food, also shipments of an electronic nature requiring handling by two persons, i.e. large white goods, car windows, car hoods.

This does not apply if it is a tax document that is part of the goods.

2.7.12 substances or objects whose transport is prohibited or regulated under international and national legislation.

(hereinafter "**ADR Items**")

If Express One Slovakia establishes that Parcel/Freight contains at least one of the above-stated ADR Items, it will be not liable for any damages in such a case.

(* ADR Agreement - Provisions on Dangerous Substances and Items) Express One Slovakia reserves the right to refuse the distribution of Freight that is in its opinion for economic, safety or operating reasons unsuitable for shipment by the shipment network of Express One Slovakia. If it is found that the Sender handed over for shipment goods other than those declared, or goods excluded from pick-up and distribution, Express One Slovakia shall have the right to withdraw from shipment and return the goods to the Sender at the Sender's expense. In such an event the right of the Sender to make any claims shall expire as regards damages to the Freight or delayed delivery.

If the Sender hands over to Express One Slovakia Freight defined in Clause 2.7 of these Commercial Terms and Conditions without the Company's knowledge and express approval, any contract shall not be valid and Express One Slovakia shall not bear any liability for any damages occurred in connection with the acceptance of the Freight and subsequent handling of the Freight. The Sender is in such an event obliged to pay the Carrier for all expenses related to the same as well as the overall occurred damage.

In the event that the Sender sends a Shipment containing personal data for transport and it is damaged, destroyed, lost or partially lost during transport, the Carrier shall not

be liable for any damage (actual damage and lost profit) incurred by the Sender and/or any penalty imposed on the Sender in connection with the damage, destruction, loss or partially lost of such Shipment. In the event that the Sender sends a Shipment containing personal data for transport, the Sender shall be liable to the Carrier for any damage caused to the Sender in connection with the imposition of a fine by the Personal Data Protection Office of the Slovak Republic.

2.8 Freight may be sent to any address in the Slovak Republic. Address shall mean the data serving for the delivery of Freight. The address includes the first name and surname, or complete title of the Recipient, address or residence (place of business) of the Recipient which is identified by the name of the municipality, street name if the municipality has street names and by the description and/or orientation number and postal code of the municipality and the phone number of the Recipient. Freight may not be sent to P.O. boxes, or as poste restante. Freight to be sent abroad must comply with the same requirements as domestic Freight. The delivery country must be stipulated on the address label. The list of served countries is stipulated in the current Price List, which is available on the website of Express One Slovakia.

2.9 Express One Slovakia or Partners of Express One Slovakia are not obliged to perform delivery to locations with unmade road surfaces or to locations without problem-free access for motor vehicles and/or on which it is complicated or impossible to turn around. "Unmade road surface" shall include the following: the access road is waterlogged, muddy, overgrown with bushes and trees, in winter period snow not removed, icy, etc.

2.10 Express One Slovakia is not obliged to contact the Recipient of Freight by phone and/or SMS in the event that the Sender does not utilise the Telephone Advice service.

2.11 Express One Slovakia is not obliged to provide services not ordered by the Sender.

2.12 The Sender acknowledges that Express One Slovakia only uses the data on the Recipient in the scope as provided by the Sender and exclusively for the purpose of delivery of Freight.

3. HANDING OVER OF FREIGHT

3.1 The Sender is authorised to order the shipment of Freight by e-mail or by phone at Express One Slovakia every business day not later than 15:00, and the Freight will be accepted for shipment on the next business day.

A Customer may only hand over Freight for shipment if they have concluded a Service Agreement with Express One Slovakia. For the conclusion of a Service Agreement, the

Sender is obliged to append photocopies of the following documents:

- excerpt from commercial, business or other registry stipulated by law,
- documentation of assigned tax identification no. and VAT identification no. if they are a VAT payer
- notification of bank details (account number, bank name, BIC and IBAN).

Following the conclusion of a Service Agreement, Customers will be assigned a customer number and free-of-charge program (hereinafter the "CAS") or access to an internet application for the automated processing of Freight. The "Order of Freight Pick Up in Other Country" service is only available for the contractual customers of Express One Slovakia.

In the event of any changes to the above-stated documents, the Sender is obliged to inform Express One Slovakia of the same without unnecessary delay.

3.2 Upon the handing over of Freight for shipment, the Sender must attach a correctly filled in address label and Taking-over Letter (output from CAS program or internet application) to each Parcel. The Sender is obliged to supplement information on the country to which the Freight is to be delivered on the Taking-over Letter. The Sender confirms by their signature on the Taking-over Letter that all data stated by them is true and correct. If the Sender provides Express One Slovakia with data on Freight in electronic form (CAS), or by internet application), they are liable for the accuracy of the data provided in electronic form; and in the event of differences between data sent in electronic form and data stated in written form in documents forming the accompanying documentation of the Freight, the data sent in electronic form shall prevail and be binding. The Sender is liable for accurate and early provision of data on Freight in electronic form (CAS), mainly, but not only as regards stating the amount of cash on delivery which is to be collected from the recipient of Freight. In the event that the Sender does not stipulate such data on the date of placing the order, Express One Slovakia is authorised to set off the receivable against the next shipment order. Stating incorrect, false or incomplete data relieves Express One Slovakia from the obligation to deliver the Freight by the **Normal Time of Shipment of Freight**. For Freight sent for cash on delivery, the Sender is obliged to state the correct amount of cash on delivery in the EURO (EUR) currency for domestic shipment and in the currency of the Recipient for foreign shipment, provided that the Customer has a bank account for the acceptance of foreign currency in the given country. If the performance of shipment requires special documents,

the Sender is obliged to hand these special documents over to Express One Slovakia not later than at the handing over of Freight for shipment. The Sender shall if required permit a staff member of Express One Slovakia to inspect the contents of Freight.

In the event that the Sender provides incomplete or incorrect data (e.g. value of cash on delivery, currency in which the cash on delivery amount is to be collected), Express One Slovakia will not be liable for discrepancies between the specified amount of cash on delivery and the actually collected amount of cash on delivery and also not for any subsequent differences in the currency of Cash on Delivery. The specified amount of cash on delivery may not be altered or cancelled after the handing over of Freight to the network of Express One Slovakia.

3.3 On the address label and Taking-over Letter the Sender shall complete all data pursuant to the printed form and confirm with their signature on the Taking-over Letter that the data stated by them is true and correct. The Sender is liable for damages which are caused to Express One Slovakia in the event of the violation of this obligation. In the event of poorly printed address labels and of address labels which cannot be read by the scanner, Express One Slovakia is authorised to charge surcharges for subsequent handling. The Sender is in such a case fully liable for poorly printed address labels and address labels which cannot be read by the scanner. In the event of manually completed parcel labels, Express One Slovakia does not guarantee the early and correct delivery due to illegibility. The Sender is obliged to remove from the Parcel, packaging, all old and non-current labels which are not related to the current shipment to prevent incorrect delivery of the Freight.

Data on the weight of Parcel declared by the Sender are only of informative nature for Express One Slovakia. Each Parcel will be reweighed on a designated meter (weighing device which is officially verified by the authorised body). In the event of an identified difference between the declared and actually measured weight, Express One Slovakia has the right to correct the difference and to charge the rate for shipment pursuant to the actual weight of the Parcel. If the Sender doesn't provide the weight of the Package/Shipment or gives the wrong weight, and it's not possible to determine the actual weight using the company's weighing equipment, including the sorting line, the Package/Shipment is considered to be as a Package/Shipment weighing 5 kg. This weight will be used for billing purposes and setting the shipping cost.

Designated meter shall mean the weighing device which is subject to regular control by the metrological institute or an entity autho-

rising by it.

3.4 **Shipment Insurance** - The price of the transport includes automatic insurance of the Parcels up to the value of 350,- EUR/parcel. Express One Slovakia is liable for damage to all parcels that are damaged due to the fault of Express One Slovakia from the time of receipt, during transport until their delivery to the Recipient, or loss during this period. The insurance covers only the actual damage to the parcel, not lost profits, fines and penalties, third-party sanctions or other indirect costs. Actual damage is understood as the amount by which the Sender's property on the transported Parcel has been reduced as a result of the damage event. Delayed delivery of the Parcel or Parcel is not considered a damage event.

3.5 The Cash on Delivery service may only be provided to countries stated in the valid and current Price List of Express One Slovakia. The maximum cash on delivery is stated in the valid and current Price List of Express One Slovakia, which is published on the website of Express One Slovakia. Cash on Delivery will be credited to the Customer amount in the currency valid in the Slovak Republic, or in the local currency of the destination country to its local account.

3.6 Express One Slovakia is obliged to label each Parcel with a self-adhesive address label. On the self-adhesive address label shall be stated: own identification data of Express One Slovakia (trade name and registered address, contact phone number, contact website), date of picking up the Freight, posting number of the Freight, weight of the Freight and identification of the Sender and Recipient of the Freight.

3.7 For international and domestic parcels, Express One Slovakia shall provide the Sender the option of selection from several types of Cash on Delivery, i.e. from the following options:

a) **Foreign Cash on Delivery in EUR Currency:** Sender requiring to send the collected cash on delivery amount in EURO (EUR) currency on a customer account in the Slovak Republic to a country outside of the Eurozone. In such an event the Conversion Surcharge will be applied, see Clause 2.2, Letter e) of the Commercial Terms and Conditions. The Sender is obliged to stipulate the banking account number in the proper format (IBAN).

b) **Foreign Cash on Delivery in Local Currency of Delivery Country:** if the Sender specifies the amount of Cash on Delivery in a local currency other than EURO (EUR), he is obliged to establish an account in the local currency and at a local bank in the currency in which he requires the collection of the amount of Cash on Delivery. The Sender is obliged to stipulate the banking account number in the proper

format (IBAN).

c) **Domestic Cash on Delivery:** For a domestic shipment of Parcels sent for Cash on Delivery. The Sender is obliged to state the correct amount of cash on delivery in the EURO (EUR) currency. The Sender is obliged to stipulate the banking account number in the proper format (IBAN).

3.8 Express One Slovakia reserves the right to, but is not obliged to, open or check or view by means of an X-ray device at any time any Parcel handed over to it for shipment.

3.9 The sender bears full responsibility for ensuring that the physically delivered Shipments comply with the data that was provided to EOS in electronic form.

3.10 In the event that the Sender hands over Shipments for transport stored on transport pallets, the Sender is obliged to pick up these empty pallets from the place of Shipment processing (at the SPS company service center) no later than 15 calendar days from the day the Shipments are handed over to EOS. EOS is not obliged to keep these transport pallets indoors and/or in covered areas, and the Sender acknowledges and agrees that the pallets may be left in outdoor uncovered areas. EOS bears no responsibility for any damage, destruction, loss, or deterioration of pallets left in this manner (in particular, but not exclusively, due to the influence of weather conditions). In the event that the pallets are not picked up within the specified period of 15 calendar days, EOS is entitled to charge a fee for leaving the pallets of EUR 0.50 per pallet for each day, including partial days, retroactively from the day the pallets were first left in the outdoor uncovered areas of the SPS service center. If the Sender does not collect the pallets within 30 calendar days from the day they were left at the SPS center, the Sender acknowledges and agrees that EOS is entitled to dispose of these pallets at the Sender's expense or otherwise permanently remove them from the SPS center premises.
